

New Patients

Welcome to Chet B. Hawkins DDS. We are excited to help you achieve a healthy, beautiful smile for a lifetime. When you visit our office for the first time, you will receive a comprehensive oral exam. During the first part of your examination, Dr. Hawkins will visit with you to discuss any past dental treatments and experiences. He will also share with you the BIG THREE reasons of dental disease and how to overcome them.

The second half of your visit will be examining all aspects of your oral health. X-rays and other records that are needed will be performed at that time. Dr. Hawkins will take photographs of all your teeth and provide instructions on how to properly floss and brush your teeth at home.

Following this first visit, Dr. Hawkins will gather all the information from your consultation and exam, and he will analyze all aspects of your oral health. Upon completing this analysis, you will return for your second visit for Dr. Hawkins to present to you your GAME PLAN. During this visit, he will provide his recommendations as a master plan for life long optimal oral health.

You can be assured that our new patient exam is not just a quick “cavity check”. Our exam is a complete examination of all dental systems that make up and affect your oral health. The most frequently heard comment from our new patients is, “Boy, I have never had an examination as thorough as that”.
